Is Your Personal Information Scattered Across Emails, Documents, Photos, Receipts, and Cloud Folders?

Take Control of Your Digital Life with Sys.tm®

What if you could instantly find what you need, automatically organize important information, and get answers from your own documents without endlessly searching through files? From tax records and medical documents to warranties, bills, photos, family records, and personal projects, Sys.tm offers secure storage and provides easy access to all of your important information when you need it most.

How can Sys.tm® help simplify and streamline your daily life?

- Extract insights with Artificial Intelligence (AI) that lets you ask questions to uncover important details within your files.
- Never lose information again with centralized storage that automatically organizes files and makes them searchable.
- Protect your identity and sensitive information with advanced, enterprise-grade security features.
- Gain peace of mind knowing that your personal documents and data are stored safely in the cloud.

Stay Ready for Life's Important Moments:

Life moves quickly, and finding the information you need shouldn't slow you down. Sys.tm securely organizes your important records in one place, making it easy to access critical documents whenever you need them. Whether you're filing taxes, planning a trip, buying a home, or managing family responsibilities, Sys.tm can help.

"Nearly half of people struggle to find the information they need because their data is spread across too many applications and repositories."[1]

Your Information, Organized and Ready When You Need It

What if your entire digital life was searchable, secure, and effortlessly organized? Instead of wasting time digging through emails, folders, and files, Sys.tm helps you securely store, organize, protect, and understand your information in one place. From everyday documents to life's most important records, Sys.tm gives you the tools to find answers faster, stay prepared, and take control of your digital life.

Extract Insights with Artificial Intelligence

Need answers from your documents without searching through files? Sys.tm® Intelligence lets you ask questions in natural language and quickly receive answers, summaries, and key details from your documents. From tax records and insurance policies to medical and household documents, Sys.tm helps you extract helpful insights in seconds.

Never Lose Information Again

Tired of searching through devices, cloud accounts, and individual hard drives to find important information? Sys.tm automatically captures, extracts, and indexes information from receipts, bills, insurance forms, warranties, IDs, and other records, creating a centralized, searchable repository. Simply search for what you need and retrieve information instantly.

Protect Your Identity and Sensitive Information

Wondering if your personal information is truly secure? Sys.tm protects sensitive documents with encryption, strong password enforcement, MFA, and more. From financial and tax records to medical and identification documents, Sys.tm's advanced security features help keep sensitive data and your identity safe and secure.

Gain Peace of Mind

Want confidence that your important information will always be there when you need it? Sys.tm securely stores your documents in the cloud, protecting them from device failure, accidental deletion, theft, or disaster. Sys.tm allows you to sync your files with the cloud, ensuring that your information is always organized, protected, and within reach.

> "Taking an active role with personal digital collections will keep them safely preserved and accessible; ignore them and the collections may become inaccessible ... we need to care for it ourselves."[2]
